

FOR IMMEDIATE RELEASE

Array Networks Wins Gold and Silver in the 11th Annual 2015 Security Industry's Global Excellence Awards in New Products and Services and BYOD Security Categories

Security Industry's Global Excellence Award recognizes MotionPro for SSL VPN secure access and mobile device management

Milpitas, CA – April 29, 2015 – [Array Networks Inc.](#), a global leader in application delivery networking, announced today that Info Security Products Guide, the industry's leading information security research and advisory guide, has named its MotionPro product a Gold winner of the 2015 Global Excellence Awards in New Products and Services and a Silver winner in Bring Your Own Device (BYOD) Security.

MotionPro is a [mobile secure access and application management solution](#) that enables BYOD and business mobility by provisioning, securing and providing access to Web applications, native enterprise applications and enterprise desktops from tablets and smart phones. MotionPro is ideal for securely addressing the growing demand for enterprise mobility and current trends toward bring your own device (BYOD), as IT can configure on-demand Layer-3 VPN connections for native business apps or leverage Array's SDK to enable [VPN connections](#) on a per-application basis. It provides a secure portal and a secure browser where remote desktops and Web-based applications may be safely utilized on tablets and smartphones, offering users the ability to access applications, documents and email anytime, anywhere, across multiple devices.

"This recognition of MotionPro further validates our product as ahead of the curve in providing high-quality support for the mobile workforce, ensuring enterprises and their employees can securely and efficiently access their information no matter what device they are using," said Michael Zhao, Array Networks' president and CEO. "We are honored to be included in Info Security's 2015 Products Guide."

More than 50 judges from a broad spectrum of industry voices from around the world participated, and their average scores determined the 2015 Global Excellence Awards
